Life Long Products is a mail order company, which has been successfully distributing Natural Health Products for over ten years.

With a wide range of natural products, to treat and alleviate the symptoms of many health problems; ranging from Arthritis to Cataracts and Hair Loss to Sunburn, we have something for everyone.

We offer our customers natural remedies, which will not cause uncomfortable or painful side effects, unlike most 'over the counter' or 'prescribed medication'. All the products in our range are safe and natural with no known side effects.

We pride ourselves on excellent Customer Service, offering 'One to One advice'. No call centres or pushing buttons – just good old fashioned customer care.

If you have any questions, do not hesitate to contact the team on **0870 770 7661**, we are waiting for your call.

Our regular customers will be aware of the changes within Life Long Products. Wendy Hill, the Sales Manager retired last year and we are happy to report she is enjoying her retirement very much, but misses talking to our customers and sends her warm wishes to you all. I am sure that you all wish her well also.

We've had a busy 12 months, during which time the Sales Office has moved to Sutton Coldfield. We have improved, updated the company literature and website.

Lisa took over the role of Sales Manager and has brought lots of exciting new ideas and sourced some excellent new products, which are proving very popular with our customers.

We hope you like our new look and will enjoy leafing through our latest brochure!!!

Read on for exciting new products and exclusive newsletter offers.

Hilary Roach (Director)

EXCLUSIVE SPECIAL OFFER

Are you a long-term user of prescribed anti-inflammatory drugs?

Serrapeptase may provide the relief you are looking for without the side effects of non-steroidal anti-inflammatory drugs.

The active ingredient in Serrapeptase was originally found in microbes in the intestine of the Silk Worm.

Serrapeptase has powerful anti-inflammatory properties. It digests inflammatory tissue.

The astonishing fact is that, unlike other, biological enzymes, Serrapeptase affects only non-living tissue, like the silk cocoon.

By taking Serrapeptase you could be protecting yourself against long-term damage caused to the body by the very drugs that are prescribed to remove your symptoms.
